

I writing of against the pending sale/transfer of Licenses and Authorizations held by Rainbow DBS Company LLC to EchoStar Satellite LLC. If consumers loose the Voom option, we are forever stuck with the Direct TV and Echostar whose prices are very close. We lose the option of more HD programming. The decision to let local TV stations operate a digital signal at low power was a disaster. I live 10 miles from the transmitter of KCIT Amarillo and cannot receive their digital signal. Past rulings of this commission have been to prevent a monopoly to services. This transfer to Echostar is not a good idea and should not occur. We need more choices, not fewer.

Thank You
